

PAVERS BY IDEAL

# Yankee Cobble™

Stones with Style™

# Yankee Cobble™

## INTRODUCTION

Cobblestones are as authentic to New England as the sailing ships that carried them as ballast across the Atlantic. In the days of horse and carriage, many of our cities used cobblestones to turn rutted dirt paths into paved streets. Today, Yankee Cobble™ pavers are the popular choice when a pavement featuring a natural stone appearance is desired.

## COMPOSITION & PERFORMANCE

Our Yankee Cobble collection offers superb quality, exceptional strength, and lasting durability. The pavers are machine-manufactured under controlled factory conditions. Specialized equipment applies extreme pressure and vibration to mold carefully blended pure iron oxide pigments with a cement-rich mixture into high-density concrete pavers that possess exceptional strength and durability.

Yankee Cobble pavers are dimensionally accurate and offer a slip-resistant surface with pressed corners and a dimpled texture. Properly installed, they offer a turn-of-the-century look with the quality, stability, and uniformity of precision concrete pavers. Yankee Cobble pavers are suitable for residential, commercial, and municipal pedestrian applications and for vehicular traffic limited to passenger vehicles. Typical uses include walkways, driveways, patios, pool decks, sidewalks, courtyards, and plazas.

## PHYSICAL CHARACTERISTICS

Yankee Cobble meets or exceeds North American industry standards, including the requirements of ASTM Specification C 936 for Solid Concrete Interlocking Paving Stones and CSA Standards for freeze-thaw performance. Each Yankee Cobble shape is packaged separately for greater design flexibility.

### Nominal Size/Coverage

-  Large Rectangle •  $6\frac{5}{16}" \times 9\frac{7}{16}"$  (160 x 240mm)  
2.42 pcs/sf
-  Square •  $6\frac{5}{16}" \times 6\frac{5}{16}"$  (160 x 160mm)  
3.62 pcs/sf
-  Medium Rectangle •  $4\frac{3}{4}" \times 6\frac{5}{16}"$  (120 x 160mm)  
4.84 pcs/sf
-  Small Rectangle •  $3\frac{1}{8}" \times 6\frac{5}{16}"$  (80 x 160mm)  
7.24 pcs/sf
-  Circle Pak • Creates circles from 32"-108" in diameter and fan patterns

**Thickness**  $2\frac{3}{8}"$  (6cm) **Compressive Strength** 8500 psi min.  
**Freeze Thaw** No Effect **Water Absorption** 5% maximum  
**Slip Resistance** Exceeds Requirements

## TECHNICAL SERVICES

Please contact our office to obtain a copy of our Master Specification, as well as comprehensive technical information and literature, including our Lockpave® Pro software. Ideal is pleased to offer design consultation, specification assistance, and job-site quality review upon request.

## DESIGN & CONSTRUCTION

The design and construction of a Yankee Cobble pavement is the same as that using our other styles of interlocking pavers. Please refer to our *Contractor's Guide to Installing Interlocking Concrete Pavers* for guidance on installation.

Our Yankee Cobble collection is comprised of small, medium and large rectangles, square, and circle pak stones. With individual packaging, shapes can be used alone or in combination to create a variety of classic herringbones, interesting running bonds and parquet patterns, or unique random designs, as well as impressive circle and fan patterns. Mix-n-match just the right amount of shapes and quantities needed for your project. Please see our *Yankee Cobble/MillStone™ Pattern Sheet* for other patterns, circle and fan details and stone percentages.

Pattern 1  
Squares

Pattern 2  
Lg. Rectangles

Pattern 3  
Lg. Rectangles

Pattern 4  
Squares/Lg. Rectangles

Pattern 6  
Squares/Lg. Rectangles

Pattern 17 (Random)  
Squares/Sm. Rectangles  
Med. & Lg. Rectangles

Pattern 19  
Med & Lg. Rectangles

Pattern 20  
Square & Lg. Rectangles

Pattern 22  
Med. & Lg. Rectangles

*A white deposit known as efflorescence may appear naturally on any concrete or masonry product. It does not affect the structural integrity and will dissipate over time. Efflorescence is not indicative of a flawed product. For more information, ask for our Efflorescence Advisory.*
