NATURAL THIN VENEER
PORTLAND STONE WARE CO.
Round sawn thin veneer is some of the most sought after stone in the world. Our round fieldstone is hand-picked and harvested from local farms and stonewalls across New England. Boasting a natural weathered stone face, our round stone may have some moss and lichen from years of weathered and aging.

---

At Portland Stone Ware we take great pride in providing the finest natural stone veneer in the marketplace today. Our unique stones are hand sorted, split and sawn by our skilled stone craftsmen to reveal natural beauty, texture and color. PSW Natural Thin Stone Veneer will add elegance and beauty to your home or business with endless design possibilities. Typical thin veneer applications include stone cladding, chimneys, fire places, pillars, indoor walls, outdoor walls, foundation coverings, and indoor/outdoor kitchens. Using simple installation techniques, our natural thin veneer is just right for new construction and renovation projects.

Our extensive line includes 39 unique stone color blends to choose from. Whether you’re a designer, architect, contractor, or home owner you can be sure PSW has the right stone for your taste. We offer 5 different profiles of natural thin veneer providing a variety of shapes and sizes to choose from. These profiles are known as ashlar, ledgestone, mosaic, square & rectangular, and round. Every profile offers unique texture and depth of color.

Our full lines of stone thin veneers are available at local masonry and building centers spanning the northeast.

In addition, we can provide full veneer and wallstone for projects that require a thicker, full bed stone. To see more, please visit us at portlandstoneware.com for design inspiration, installation practices, and specification sheets. We recommend contacting your local masonry dealer for samples and product info. Photos are a representation and colors will vary.

---

All of our stones are hand-picked and harvested from local quarries and farms all around New England.
ASHLAR

Ashlar is rectangular in shape, with a larger range of stone heights. The ashlar profile is also hand split to reveal the natural stone’s unique grain and texture.

MOSAIC

The mosaic profile is a classic look, made up of irregular shapes and sizes to give your project that “Old World” look and feel. Our mosaic cut stone has a natural stone face, exposing the true beauty of the grains and colors created by Mother Nature millions of years ago. Mosaic offers endless layout and grouting options to achieve the finished look desired.

COLOR DESCRIPTIONS

NEW ENGLAND BLEND
Our flagship stone, New England Blend is a unique mix of Antique Granite, Connecticut Tan, Connecticut White Line, Newport Gray, and Vinland Granite. When mixed all the colors create a balanced mix of earth tones, dark and light grays, and pinks.

ANTIQUE GRANITE
Weathered and well aged, our Antique Granite is made up of cool grays with hints of light browns, and a great textured face with a salt & pepper speckled appearance.

CONNECTICUT TAN
From golden browns to earth tones, with an occasional gray mixed in, Connecticut Tan offers a tanned, bronze glow to any wall.

CONNECTICUT WHITE LINE
Connecticut White Line is one of the darker colorings consisting of cool and dark gray to very slight green color tones with wisps of white veins running through out.

NEWPORT GRAY
A consistent mix of light color earth tones primarily gray in color, with hints of mica this stone has a slight natural sheen in its appearance.

VINLAND GRANITE
“Vinland” comes from the Old Norse Vikings meaning the area of coastal North America where this stone is found. This stone has subtle color tones of grey, purple, brown, and some white mica.

WEATHERED CUBE
From deep blue gray, to yellows and browns, this stone has a timeless weathered granite face.

PENNSYLVANIA WEATHERED EDGE
Sourced from the miles of old farm boundary walls in Pennsylvania this stone has a mix of blues, lavenders, lilacs, browns and grays. Well weathered, it is not uncommon to find specks, of moss or lichen on this stone making it full of character.

NEW ENGLAND WEATHERED FIELDSTONE
Similar to Connecticut Tan, New England Weathered Fieldstone is a mix of deep browns, golds, greys, and rich tans.

BEACH
Multicolored mix of tans, earth tones, grays, and pinks, beach veneer has a smooth round face, perfect for that “coastal look.”

BLUE MOUNTAIN
This true classic granite with a coarse grain has dark blue green with tans and browns running throughout.

BLUESTONE ASHLAR
This is a special cut of bluestone designed for vertical applications to continue using the deep blue, purple, and blue-green tones.

POCONO BOULDERS ROUND
This smooth round face is a mix of light tan, light to darker grey, with occasional purple tones.

WHITE MOUNTAIN ROUND
Deeper in color than Pocono, White Mountain provides a rustic look with a semi-smooth face.
